    - Environmental engineer
    - Federal Government Consultant
    - Environmental coordinator at the Energy Industry
    - Smart city/freelance projects
    - CEO of green walls/roof company
    - Sustainability Consultant

# What Our Students Have To Say

## **Charlie Levine (Class of 2019) Israel**

Throughout the program I enjoyed the consistent comparisons and contextualization between the global environmental movement and challenges with the local Israeli and Middle Eastern experiences.

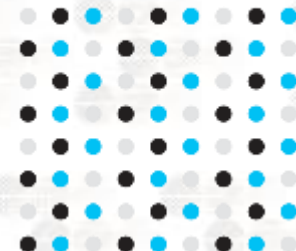

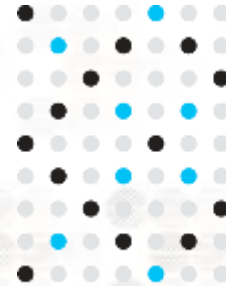

I found the eclectic mix of students from different countries from across the world that come to Tel Aviv to study together greatly enriched the program and my learning experience.

## **Caroline Wagner (Class of 2020) Germany**

The decision to pursue a MA of Environmental Studies at Tel Aviv University was the best educational decision I have made so far.

The MA program has set out a fundamental foundation on environmental knowledge that I use every day and continue to build on to find my career path.

# THANK YOU
